
Rolyss Integrated Solutions

CAPABILITY STATEMENT

OCTOBER 2026

Integrated capabilities. One accountable partner.

Rolyss Integrated Solutions is a Texas-based company focused on supporting government agencies, prime contractors and commercial organizations with procurement and supply chain, project delivery, facilities maintenance, financial administration and catering support. Our approach brings together engineering, capital-project and business operations experience to define requirements, coordinate resources and follow through on agreed commitments.

CORE CAPABILITIES

Contracting, Procurement & Supply Chain

Sourcing, supplier evaluation, contracting support, procurement coordination and delivery tracking, informed by experience on mega capital projects in the oil and gas sector.

Project & Program Support

Planning, schedule coordination, progress reporting and execution support through partnership with a PMP-certified project management professional experienced in onshore and offshore mega capital projects.

Facilities Maintenance & Operations

HVAC repair and maintenance coordination, building maintenance, janitorial and landscaping support, with technical requirements informed by facilities engineering experience in heavy and light industries.

Accounting & Executive Administration

Accounting and bookkeeping support, financial record organization, reconciliations, reporting support and executive office coordination, informed by accounting, banking and administrative experience.

Logistics & Integrated Solutions

Supplier, delivery and relocation coordination; integrated planning and follow-through across multi-part requirements and service partners.

Catering & Food-Service Support

Catering coordination, bakery products, menu and order planning, and customer fulfillment, grounded in hands-on bakery ownership and catering experience.

EXPERTISE & PARTNERSHIPS

Capital project management

Partnership with a PMP-certified professional with 13 years of project execution and management experience, including onshore and offshore mega capital projects.

Engineering & facilities

Engineering and facilities maintenance experience across heavy and light industries.

Finance & executive support

Accounting professional with banking, financial administration and executive administrative experience.

Catering & entrepreneurship

Bakery ownership and catering experience spanning food-service planning and customer fulfillment.

Experience reflects professional and partner backgrounds, not Rolyss contract past performance.
